

## Realm of Aethel

Minecraft Servers

*This document serves as a resource for the specifications of Aethel's Minecraft servers.*

### Rules

1. Xray, cheats, and hack clients aren't allowed.	Example clients such as, but not including all, Lunar, Badlion, and Onix are fine.
2. Don't try to duplicate items.	Go play creative instead.
3. Remember that the server is for everyone.	Don't make lag machines, and don't generate more chunks than necessary. Bigger worlds make server maintenance periods take longer.
4. Respect communal and player areas.	Don't grief other players' property, obstruct global player spawns, or trap warp locations. Pranks that are easy to remove, undo, or fix are fine.
5. PVP with consent.	PVP should be for friendly competition rather than by malicious intent.

### Reports

If you have an issue with another player, provide a date and time the incident occurred and any sufficient evidence you may have to an admin. Screenshots and/or screen recordings uploaded as private links on YouTube are effective mediums.

### Donations

Donations go towards the servers' upkeep and provide no benefits in-game.
